

Tasks for Milestone 5 - Group 6

Task ID	Description	Complexity	Justification
T01	Add unit tests to increase the test coverage in libSMCE	Hard	Unit test for functionality and quality like performance.
T16	ArduinoGraphics library support	Insane	We want to add a component to the emulated car in the frontend.
OT ¹ 5	Presentation preparation Prepare slides for milestone 5	Easy	2 files: slides, notes
T5	Code documentation / write comments for each function and variables.	Medium	To improve readability

For each programming task we aim to review and merge into the dev branch. Before merging in the master branch.

Furthermore, we will improve the readability and testing for all of the tasks, to ensure that we are creating a deeper understanding for all members and coming readers of the code.
